I have previously attempted to find your contact details online to no avail; and either the search engine blocking me from finding your website; or you have a new website with your contact details: [Revisionist History](#).

In correspondence to Family Policy Institute and Unashamedly Ethical: **Are Family Policy Institute and Unashamedly Ethical social and resource conflict problem solving ethics founded upon (i) Ecology of Peace factual reality or (ii) Masonic War is Peace flat earth beliefs?** [PDF], I clarify the difference between Ecology of Peace and Masonic War is Peace cultures; and state the following: "In *Secret Societies and Psychological Warfare*, Michael Hoffman documents his interpretation of Christianity's origins as a people who were opposing the occult Babylonian human sacrifice practices resulting from totalitarian agriculture population pressures."

I do not pretend to be an expert on Christianity or any other organized religions biblical texts; so my interpretation of the anti-occult origins of Christianity are based upon your research and conclusions. I don't know if God or the Devil exist or not. Thanks to some process; whether a result of some God or simply evolution; I have a brain capable of observation and analysis of reality.

My working hypothesis conclusion about reality is summarized as Ecology of Peace facts reality: 1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; 4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict [national and international inter-cultural resource war conflict](#); humans must implement an international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

FYI Disclosure: I don't need a God or Devil to help me to refrain from procreating like a cockroach on Viagra; or to refrain from consuming like a bling nigger on crack; or to order me to relate to other human beings in accordance to fully informed consenting agreements. As long as people are willing to procreate and consume below ecological carrying capacity limits; and engage in fully informed consenting agreements; I could care less whom or what any individual calling themselves a 'human' chooses to worship; with whom or how; in the privacy of their own home; or at a private venue of their choosing with other fully informed consenting adults. If

other people need a God, Devil, Fairies or Rocks, or whatever object or invisible deity; to order them to procreate and consume below carrying capacity limits; that's okay by me.

If my interpretation of your argument of Christianity's origins as a people who were opposing the occult Babylonian human sacrifice practices resulting from human nature's refusal or inability to limit population pressures to ecological carrying capacity limits; is inaccurate in any way; kindly clarify so that I can make any required corrections; so that I do not misrepresent your argument.

[2] Transcript of all correspondence to Unashamedly Ethical, Family Policy Institute and Michael A Hoffman [\[PDF\]](#)

Confirmation of Christianity Anti-Occult Origins with Mr. Hoffman:

As is mentioned in the letter to Unashamedly Ethical and Family Policy Institute; my knowledge of the alleged anti-Masonic origins of Christianity is based upon reading the book by Jewish and Christianity scholar: Michael A Hoffman: Secret Societies and Psychological Warfare.

I wrote to Mr. Hoffman and informed him of my letter to Unashamedly Ethical and my reference to his book; so that he could read my letter to Unashamedly Ethical; and could inform me whether I had misquoted or misinterpreted his argument about the anti-occult human sacrifice origins of Christianity.

He has not informed me that my interpretation of his scholarly working hypothesis conclusions as to the anti-occult origins of Christianity are incorrect.

I don't pretend to be an expert on Christianity; but his argument has some kind of logic to it. Either way; I don't pretend to be a Christian; so the issue is one for Christians to resolve amongst themselves.

As I told Mr Hoffman:

I do not pretend to be an expert on Christianity or any other organized religions biblical texts; so my interpretation of the anti-occult origins of Christianity are based upon your research and conclusions. I don't know if God or the Devil exist or not. Thanks to some process; whether a result of some God or simply evolution; I have a brain capable of observation and analysis of reality.

My working hypothesis conclusion about reality is summarized as Ecology of Peace facts reality: 1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above ecological carrying capacity limits, it results in resource conflict; 4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict [national and international inter-cultural resource war conflict](#); humans must implement an international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Response from Unashamedly Ethical:

There was no response from Unashamedly Ethical Administrators; until the letter was forwarded to Unashamedly Ethical Administrator: Jaap Le Roux by the Unashamedly Ethical Ombudsman; saying he could only address the issue as Ombudsman; once he had received an official complaint through the Unashamedly Ethical Administrative office. Immediately thereafter the Unashamedly Ethical Administrator Mr. Jaap Le Roux responded stating they had not received the original due to some alleged email problems; but now that he had received it from the Ombudsman, "The matter is now receiving attention and a response will be forthcoming in due course."

I responded that it was not an official complaint to the Ombudsman; only a letter of enquiry; and that I'd prefer to give Unashamedly Ethical the benefit of the doubt; that they sincerely were ethical and would sincerely address the question and respond.

On 06 August 2015 I asked Jaap Le Roux whether he could inform me of a date by when I could expect a sincere response and answer to the issues raised in my letter of enquiry.

As of 03 October 2015, there has been no response from Unashamedly Ethical: Jaap Le Roux.

Limits on consumption, yes.

Limits on bringing human life ("breeding") into the world is God's decision. Man playing God always has disastrous consequences.

Let God staff the earth with God's personnel. God does that by sending children to earth to be born. When we interfere we bring catastrophe.

RE: Revisionists.com: Anti-Occult-Christian Revisionist Michael Hoffman & Unashamedly Ethical

Apologies: I noticed you also have Michael Hoffman as one of your revisionists.

Here is a transcript of my correspondence to Michael Hoffman; as part of my submission to Unashamedly Ethical [[PDF](#)]; to attempt to confirm “whether his interpretation of Christianity’s origins as a people who were opposing the occult Babylonian human sacrifice practices resulting from totalitarian agriculture population pressures” is accurate or not.

His response indicates that he thinks Earth is flat; resources are infinite; and humans can breed like cockroaches on Viagra and there shall be no violence or resource conflict -- some of which would be occult Babylonian human sacrifice practices -- which appears to contradict his theory that he was a ‘real’ anti-occult Christian who opposed occult Babylonian human sacrifice practices from totalitarian agriculture population pressures.

I once relied on an 'expert': Dr. Brad Blanton; whom I thought was sincere; i.e. not engaged in conscious or deliberate deception; and would happily back up his Radical Honesty working hypothesis theory; under oath in a court of law; well I was wrong: [FBI: Brad Blanton and Radical Honesty Fraud](#).

Is Michael Hoffman a sincere revisionist expert of Christianity's origins as a people who were opposing the occult Babylonian human sacrifice practices resulting from totalitarian agriculture population pressures?

I don't know; if he (i) does not appear to be entirely convinced about his working hypothesis theory; (ii) considers himself an Übermensch intellectual and has a problem explaining himself to an untermensch village idiot woman; (iii) or has some other unknown reason; for not backing up his theory.

As far as I am aware: If you are a sincere ethical intellectual and this of course does not only apply to people who call themselves revisionists; but any intellectual; you (a) back up your theory; particularly if you have the opportunity to do so; in a legal venue that examines working hypothesis based upon evidence under oath; until you have evidence that contradicts it; and then you honestly, publicly sincerely clarify and amend your theory to reflect the new working hypothesis reality; and (b) appreciate feedback that helps you to verify, amend or discard your working hypothesis about reality theories.

If or when you have lots of intellectuals who are only engaged in parasitic verbal diarrhea to sell books or become some form of intellectual verbal diarrhea celebrity; not sincere ethical intellectual pursuit of reality; about any aspect of reality they are investigating or researching; then its quite fair to say that Faye's statement about revisionists forming their ideas in a fog; in which nobody understands anything anymore; would also be proportionally true for any group of intellectuals in any 'left' or 'right' or 'nationalist' or 'capitalist' or 'communist' or 'catholic' or 'muslim' or 'academic' field of research; who are engaged in verbal diarrhea; not sincere ethical intellectual pursuit of reality; for the benefit of humans and the foundation upon which their and all other species survival depends: resources resulting from procreating and consuming within ecological carrying capacity limits.

Perhaps Michael would explain whether he is a sincere revisionist expert of Christianity's origins as a people who were opposing the occult Babylonian human sacrifice practices resulting from totalitarian agriculture population pressures; to someone besides me.

That is of course if the people who work at Revisionists.com and Michael Hoffman are humans like the rest of us that survive on clean air to breathe, clean water to drink, organic food to eat. If you don't require clean air to breathe, clean water to drink, organic food to eat; well then of course there is no need to bother about any sincere ethical intellectual pursuit of reality; for the benefit of humans and the foundation upon which their and all other species survival depends: just keep on polluting the air, adding toxins to the water and munching away on your Yum Yum Economic Growth; Yum Yum nigger spick cheap labour slaves occult holocaust-cannibal-toxic food; creating a good old Nazi oven for all of us to have an acid rain shower before we are raptured to our selectively chosen afterlives.

RE: Revisionist.com: Anti-Occult-Christian Revisionist Michael Hoffman & Unashamedly Ethical

Your form letter response – by random coincidence; or deliberate coincidence: intentionally on your part; and/or psychotronically manipulated by military intelligence agency officials – is rather similar to the 09 November 2012 2:33 PM response from Anne Alexander to my 06 November 2012 correspondence to Brad: Subject: **Re: Radical Honesty Petition filed to Supreme Court..... Request to Brad** [[PDF](#)].

If you consider it random: Ignore.

If intentional on your part: Kindly clarify.

If partially psychotronically manipulated by military intelligence agency officials: herewith my EoP RH subjective coincidence observations feedback to you and/or them:

EoP RH Interpretation:

EoP RH interpretations are subject to [EoP RH IQO caveat](#). These are just a very few.

Summary of 06 November 2012 request to Brad:

It notified him that the ‘practicing radical honesty’ application as ‘religious speech’ petition had been filed with the Supreme Court; and requested that he honourably notify the Supreme Court to let them know that he and the Radical Honesty community were aware of the petition; its contents that requested that ‘practicing radical honesty’ be considered ‘religious speech’ in terms of the First Amendment and their brutally honesty opinions about the petition.

Summary evening of 21 November 2015 Observations:

I noticed: Tim Johnston’s [Awkward Progressives Moment facebook post](#): “That Awkward Moment when you realize Satanists are more Christ-like than Conservative Christians [about] Satanic Temple Minneapolis Chapter offering to escort Muslims to get groceries.”

Immediately thereafter I noticed: Timothy Truthseekers: [Baton Rouge; Louisiana: Progressive Criticisms of the ACA traffic feed post](#); which deals with among others US Supreme Court John Roberts opinions about Obamacare. As noted at [Baton Rouge Louisiana](#): Baton Rouge allegedly means Red Stick in French; and one of its nicknames is: Chemical City.

Re *Groceries*: I remember thinking about Derrick Jensen’s [What a Way to Go: Identification with Civilization](#) statement about people who know they get their food and water from a landbase: healthy organically alive soil and clean water, compared to people who think water and food come from a grocery store. [The Fuck It Point](#): When grocery stores go empty.

Re: *Satanic Temple*: I remember seeing Nathan Llewypas 10 November post to Fritz Springmeier about [Dr Red aka Lt. Col. Michael Aquino](#).

At the time of seeing it; I thought about the ‘I Orange’ [bubble consciousness](#) post I made a few weeks ago; which had so many links to Paris Attacks. For example: one of the streets involved in the Paris Massacre was ‘Charon’ – can’t remember the exact French spelling -- street; the Germanwings relief workers who had ‘by coincidence/fate’ been at the St Dennis Soccer match: where the suicide bomber tried to get access to; but when the security guard noticed his suicide vest; he backed up and blew himself up. [At the time](#) I thought I should redo it; but have not yet done so. I have now edited the info about the bubble’s for clarity.

When Dallas called to order worm castings; which he said he would pick up on Saturday morning of 14 November; I thought he said his name was Dennis, as in Dennis the Menace. He corrected me and said it was Dallas; as in the name of the city in Texas; which was also the name of a well known television show about an Oil Mafia family known as the Ewings. He asked me a question about my limp; so I said it was a long story. I later emailed him a response [here](#).

→ According to among others: *Others Unknown: Timothy McVeigh and the Oklahoma Conspiracy*; by Stephen Jones: Dr. Paul Heath, a Veterans Affairs psychologist, said a man called McVeigh and another man visited his fifth-floor office in the Alfred P. Murrah Federal Building looking for a construction job; two weeks before the OKC Federal building bombing.

Heath said he asked the man if he spelled his name M-c-V-a-y – similar to Anton LaVey, founder of the Church of Satan. But McVeigh quickly corrected him; telling him to remember his name is spelled M-c-V-e-i-g-h. Heath described the second man as being "half-Mexican, half-American; possibly a South American or foreign national."

→ In Martin Keating's 1991 fictional book *The Final Jihad*; a man called Tom McVey bombs an OKC federal building as a story in fictional literature. Four years later in April 1995, Martin Keating's brother: Frank is the Governor of Oklahoma when Timothy McVeigh bombs the Murrah Federal Building in Oklahoma City on 19 April 1995. In the *Final Jihad* fictional literature McVey is stopped by a highway patrolman for having a broken tail-light. In real life four years later McVeigh is stopped by a highway patrolman for having a broken license plate. In the *Final Jihad* fictional literature, 'jihad' represents Masonic Muslim militant organized religion 'jihad struggle' against Masonic Christians. In real life Timothy McVeigh's 'Final Jihad' depicts his Ecology of Peace Christian – military, spiritual, economic, sexual, emotional, legal, psychological – 'jihad struggle' with Masonic Muslims, Christians, military necessity bombing of the OKC Federal Building; to plead to his military necessity 'shot heard around the world' defence motives to implement an Ecology of Peace international law social contract; that requires all the world's citizens to take responsibility for their jihad/struggle to breed and consume below ecological carrying capacity limits.

13 November Paris attacks:

→ One of the attacks was at the Stade de France stadium; in the suburb of Saint Dennis; where there was a soccer match between Germany and France; where a suicide bomber was stopped by security guard who discovered his suicide belt; so he backed up and blew himself up outside the stadium. Inside the St Dennis stadium were among others: relief workers from 24 March 2015 Germanwings – headquartered in Cologne – Flight 9525, whose co-pilot: Andreas Gunter Lubitz locked the pilot who had gone to the toilet out of the pilot-cabin; so he could kamikaze suicide crash himself the plane and passengers into the Massif des Trois-Évêchés mountain; in the Ravin du Rosé; north of Nice; because his psychologist informed him that he was going blind.

→ Another Paris attack was at a restaurant called the Cosa Nostra; which is a term the Italian Mafia use to describe themselves.

→ Another Paris attack was at a Jewish owned theatre called Bata'Clan Concert Hall; where a metal rock band was playing. My dad's email address starts with 'clan'; also word for small tribe. The Bata'Clan Concert Hall attack appears – in terms of military strategy MO: "modus operandi"; short for Method of operation or way of doing things – similar to the Kenilworth [St. James Church massacre](#) on 25 July 1993; by four cadres of APLA: Azanian People's Liberation Army; who were also responsible for the 28 November 1992 King Williams Town Golf Club attack; and the 31 December 1993 Observatory Capetown: Heidelberg Tavern attack. One MO difference between Bata'Clan and St James: At St. James Church there was a man in the congregation: Charl van Wyk; who had a gun; who started shooting back.

→ One of the St James attackers was Gcinikhaya Makoma who was pardoned by Mandela and Tutu's TRC. On 27 August 2002, he was arrested along with six others following a cash-in-transit heist of a Standard Bank cash van in Constantia, Cape Town, in which R1.8 million was stolen. 25 July is my sister. 27 August is one of my brother's birthday.

→ On 25 July 2000 Air France Flight 4590: Aérospatiale-BAC Concorde, on a scheduled international flight from Paris, France, to New York City crashed shortly after take-off. While speeding up on the runway; one of its tires ran over a small L-shaped titanium alloy strip; which had fallen off from a Continental Airlines DC-10 departing for Newark, New Jersey, whose rivet had popped. The L-shaped alloy strip cut a tyre, rupturing it; the tyre debris struck the aircraft's wing; which sent out a pressure shockwave that ruptured a fuel tank. Leaking fuel was ignited causing two engines to lose power; as the plane became airborne it could not stabilize and limped to its crash-landed into the Hôtelissimo Les Relais Bleus Hotel. The worm in the 'worm castings' picture on SQWorms page is in the form of an 'L'.

As I compiled the aforementioned information on 20 November 2015; I noticed online that there was currently a terror hostage attack going on in Mali; where gunmen are holding 138 hostages at Radisson Blu Hotel.

Summary of 22 November 2015 legal request to Magistrate Gutz Essel, Clive Johnstone and other respondents:

At the time I received your: Michael Hoffman form email response I was working on legal documentation being drafted for filing; more particularly ***Request for Inquisitorial Truthseeking Win-Win Proceedings*** paragraphs.

Excerpt from Notice of Motion:

The applicant requests that the resolution of these issues in dispute occur via primarily inquisitorial proceedings with a truthseeking and win-win conflict resolution focus; where all parties are enabled and empowered by sharing honest accurate information with each other; tested for scientific evidentiary validity; for the benefit of all parties; setting common and/or civil law precedents based upon ecological resource reality; thereby enhancing the juridical system's reputation for impartial truthseeking of resource and social-conflict resolution problem solving juridical arbitration; amongst the citizenry.

If any respondent prefers zero-sum game adversarial proceedings; where a liar with best legal propaganda is the winner; an honest man with no lawyer loses; the common or civil law loses by setting precedent based on parasitic legal propaganda not proven scientifically relevant evidence; and the only winners are lawyers profiting from 'innocence for sale indulgences' legal propaganda conflict escalation; for their legal colleagues parasitic profiteering off misery benefits; damaging the juridical system's impartial truthseeking and problem solving social-conflict resolution reputation amongst the citizenry; kindly provide the applicant and court with your reasons and justifications for such zero-sum game adversarial proceedings.

Excerpt from Affidavit:

The applicant requests that the resolution of these issues in dispute occur via primarily inquisitorial proceedings with a truthseeking and win-win conflict resolution focus; as noted in Amended Notice of Motion 01.

If Agreed: Thank you.

If any respondent prefers zero-sum game adversarial proceedings as noted in Amended Notice of Motion 01; applicant shall provide her response to such preferences; should any respondent confirm their preference, and evidence in support of such preference; for zero-sum game

adversarial proceedings. If so: If relevant to respondents argument; applicants argument may include information and evidence detailing; among others:

1. how flat earth jurisprudence that ignored or refused to amend their laws to respond to (i) ecological strain; and (2) economic stratification resource war violence; resulting from procreation and consumption above ecological carrying capacity limits; contributed to the collapse of the state of among others: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan Empires; which included the disappearance of between 90-99% of the populations: from famine, disease and organized violence resource wars; including their kings, presidents, Gods, calendars, courts and other complex political and cultural institutions. [Footnote: 2012 & 14: NASA funded studies: Human Predator and Nature Prey Dynamics - HANDY – studies Modeling Inequality and Use of Resources in the Collapse and Sustainability of Societies. Human And Nature DYnamics (HANDY) is based on the Alfred Lotka and Vitto Volterra predator-prey model, which described the dynamics of competition between two species; in that case wolves and rabbits. In these HANDY studies humans are considered the "predator", while nature (the natural resources of the surrounding environment) is considered the "prey", depleted by humans. <http://sqswans.weebly.com/us-nasa.html>]

2. how juridical systems reputation – as a legal system that cooperatively or obstructively refuses to resolve ecological strain and economic stratification resource social conflict cooperative problem solving amongst citizens – can result in (a) non-violent problem solving cooperation via among others non-violent political or military necessity allegedly unlawful acts to educate police, prosecutors and magistrates and citizens via criminal proceedings and the media generated from such criminal proceedings; or (b) violent vigilante community mobjustice acts of terror; to either (i) violently take matters of justice into their own hands in their communities; or (ii) coerce government officials to find solutions for citizens resource war social conflict disputes; or (iii) simply kill all those who cannot or refuse to be violently coerced; to elect or appoint a new government. [Footnotes: I had not yet any footnotes]

If none: Thank you.

Don't know if any of that is helpful.

Sent the non-edited response; to go and walk the dogs and cut some bamboo sticks for our veggie garden beans. Had to get a saw to cut the bamboo; and needed a newspaper to wrap it in; so it did not cut my rubber tighteners for my bicycle trailer. As I went to find some my father came out the kitchen with a newspaper for recycling. He gave it to me: the front page had an Afrikaans article about Paris Attacks: From Robespierre to ISIS; all colours of blood are flowing. When I arrived at my friends house to pick up her German Shepherd dog to take it for a walk; her boarder a young mechanic arrived at the gate with me; returning from the grocery store. When I arrived at the forest with the dogs; there was an MSec security guard sitting in his 'Armed Response' van under a tree. When we came back from the forest; he started his van, drove past us; waved; and went to park in the sun.

RE: Revisionist.com: Anti-Occult-Christian Revisionist Michael Hoffman & Unashamedly Ethical

More possible history to be revised....

The huge influence Freemasons had in ruling British society for almost 200 years has finally been revealed.

The names of royalty, statesmen, judges, military top brass, bishops and police have been found in a secret archive which lists two million Freemasons.

The masonic records - from 1733 to 1923 - are set to be made available to the public for the first time.

The extent to which Freemasons wielded power over the British Empire may lead to a re-examination of two centuries of our history.

Weebly: FYI: SQWorms password & Tygae PDF Uploads

On 15 November 2015; shortly after I attempted to log into [SQWorms](#); to post an update to the correspondence to [Dallas Fell; copied to NSA and FSB](#). I was informed by Weebly log in; that my password was incorrect. So I went through the process of resetting my password; but when I had input the password and then again to confirm it; and pushed enter; it refused me access. I tried twice; and tried again a few days later; and the same thing happened. [\[PNG\]](#)[\[PNG\]](#)

On about 17 November 2015; the PDF upload function on [Tygae](#) was disabled: i.e. the green button which you click to upload a PDF file; was no longer html active; the little html mouse hand sign indicating html active; was replaced by the normal mouse arrow sign [\[PNG\]](#). A few days later it was re-enabled. Then on 22 November it was again disabled; and has remained non-activated since then.

Until it is re-enabled; I have added the following statement next to PDF documents that are unable to be uploaded; at [MILED Clerk Notice](#): “The Weebly PDF upload function has been disabled; either by Weebly tech staff; or other entities. When re-enabled the PDF shall be uploaded” [\[PNG\]](#).

If the SQWorms password and Tygae PDF uploads technical changes are (a) a result of any Weebly decisions; and (b) directed to me; kindly clarify in simple English what your message is; so that I can consider your request and provide you with my response and if necessary reasons; and the matter can be amicably resolved.

If the SQWorms password and Tygae PDF uploads technical changes are not a result of Weebly’s decisions; kindly let me know so that I can amend the statement at MILED Clerk Notice.

If the SQWorms password and Tygae PDF uploads technical changes are (a) a result of other entities; such as NSA, FSB, Mossad or similar; and (b) directed at me and/or Weebly, and/or Tygae readers; then I imagine we shall just have to be patient until we can figure out what their message is exactly.
