Dear Sir/Madam,

Thank you for the complaint/information passed to the Hong Kong Police Force by two e-mails on 2016-03-04 & 2016-03-05.

'Crimeinformation' is held by Criminal Records Bureau which is the central point in the Hong Kong Police for receiving crime information from members of the public. We are not an investigation unit but we refer information/report to the appropriate unit for further action.

On the basis of the information provided, there is insufficient detail for the Hong Kong Police Force to take action. We may be able to assist if you could provide full details of the matter (i.e. offence time, date & location in Hong Kong). We cannot take appropriate action in the absence of your further information.

Regards,

Criminal Records Bureau

Summary of Correspondence:

On 26 July 2015 [PDF] and 06 October 2015 updated [PDF]; I filed a Request for Information to Unashamedly Ethical: ***Are Family Policy Institute and Unashamedly Ethical social and resource conflict problem solving ethics founded upon (i) Ecology of Peace factual reality or (ii) Masonic War is Peace flat earth beliefs?***

On 04 March 2016 I made a submission [Complaint PDF; Proof of Service PDF] to Capetown; Hong Kong, Dandenong, Kuala Lumpur, Vancouver, Uxbridge & Auckland Police: Notice of Possible Fraudulent practices being practiced by Unashamedly Ethical. The submission with regard to Hong Kong jurisdiction referred to Roy Chen; Intl Advisor: Unashamedly Ethical; Chairman and CEO of Grace Financial

Member: Public Shareholders Committee: Hong Kong Securities and Futures Commission;
Founder: Seeds Foundation; Grants Committee: ZeShan Foundation; Family Business Network:
Hong Kong; Sterling Enterprises; Steering Committee: Caring Company Hong Kong. Brother of
Annie & Minoru Chen. Resident of Hong Kong.

Hong Kong Police Criminal Records Bureau have responded [[PDF](#)] that although they are not a
Hong Kong Police investigation unit; they do refer information or reports to appropriate units
for further action.

Their response to my submission of Roy Chen's alleged Unashamedly Ethical fraudulent
practices; was that I had provided insufficient detail of the fraud – offence time, date and
location in Hong Kong – for the Hong Kong Police to take appropriate action.

They have not yet confirmed whether they accept Affidavit Complaint Statements from
individuals who are members of an Ecology of Peace culture [[EoP Oath PDF](#)]; and if so;
informed me in writing of their request that I provide them with an Affidavit Complaint
Statement.

If Hong Kong Prosecutors and Mr Chen are willing to consider (i) whether they may be
interested in a 'fraud' discussion; whether in public; or in court; that is founded on truthseeking
inquisitorial enquiry consideration of the evidence that Mr. Chen's 'fraud' is at least partially; a
symptomatic result of systemic legal ecological illiterate social contract; to (ii) generate public
education and support for the amendment of the ecologically illiterate 'right to breed and
consume with total disregard for ecological carrying capacity limits' social contract clauses; to be
replaced with international law social contract clauses requiring all the worlds citizens from all
religions, classes and races to procreate and consume below ecological carrying capacity limits;
or have their genes eliminated from the planetary genepool; (iii) it would be worth investing my
time to draft an official fraud complaint.

If so; could they provide the Hong Kong Police and myself; with a good faith notice in writing;
that they support the Hong Kong Police to accept an Affidavit Complaint Statement from an
individual who is a member of an Ecology of Peace culture [[EoP Oath PDF](#)]; in this matter.

Masonic War is Peace social contract 'fraud':

According to my cultural ethical values and definition of 'fraud' -- making false verbal or
behavioural representations to manipulate or deceive others for your own economic or socio-
cultural or psycho-political profit – Mr. Roy Chen is and could be found guilty of fraud; as
defined by Masonic War is Peace social contract statutes.

I was not deceived into believing the 'unashamedly ethical' crap on Unashamedly Ethical;
anymore than I would have believed [Donald Trump's 'get rich quick university'](#) or 'make
America great again' schemes'; [Jacob Zuma's 'perfectly good chicken run' defence](#). I perceive the
qualitative difference of their 'fraud' guilt as being the Judas Goat flavour of their ecologically
illiterate [flavour aid](#).

Whether those who signed up to being Unashamedly Ethical members were deceived by Mr.
Chen's deceptive 'unashamedly ethical' representations are conscious of his manipulative
deception of them or not; I don't know. Perhaps Mr. Chen prefers to pretend to himself that he

is not deceiving his followers; his followers prefer to pretend that they were not, and are not; being deceived by Mr. Chen.

I don't think there is any shame in being deceived by another; the process of deception requires at least two participants. One to consciously spin a fake story; and the other to sincerely believe that the fake story is not spin; but sincere. I have been deceived; by a master con-artist; but when I woke up to the painful reality that I had been deceived; I had to confront myself and my deceiver. In my case; I filed fraud charges against him and his co-deceivers with the FBI: [Brad Blanton and Radical Honesty fraud](#). I remember sitting in a Radical Honesty workshop; watching Brad Blanton sobbing his heart out; about how he had never lied to anyone; had lived an honourable life; could die in peace. I thought; wow this man must be sincere about this Radical Honesty stuff. I was very wrong. Brad Blanton could sob and sob until his sobbing filled the Aqua Zarca dam; but if he's 'radical honesty' does not include public in your face recognition of Ecology of Peace Factual Reality and the support for the implementation of an Ecology of Peace international law social contract; then he is not being honest – let alone radically honest - with himself or others.

'From an Asian perspective, climate change is not a distant threat – it is happening today. I want to make sure that the way my capital is invested is part of the solution and not the problem. ... We are aware of the complexities around climate change especially when it comes to fossil fuel-intense industries. This is an important dialogue to be engaged in. We cannot shy away from it because it is difficult or controversial. ... I am part of a new generation of wealth holders who are concerned about the state of our commons. Our environment is our most critical commons. We hope other family offices and investors will join us in tackling these issues. We can prove to the world that asset owners may truly do good and do well, and demonstrate how it is possible to steward wealth not just for future generations but for the common good.'" -- Annie Chen; RS Group.

Similarly; Roy and Annie Chen and the Unashamedly Ethical Ombudsman, Executive Committee and International Advisors can sob until they fill the Aqua Zarca dam; but if their 'unashamedly ethical honesty' does not include public in your face recognition of Ecology of Peace Factual Reality; then they are not being honest – let alone unashamedly ethical -- with themselves or others.

Until humans cooperate to implement an Ecology of Peace international law social contract -- replace the 'right to breed and consume with total disregard for ecological carrying capacity limits' of the Masonic War is Peace international law social contract; and replace it with clauses requiring all the worlds citizens; from all races, religions and cultures; to procreate and consume below ecological carrying capacity limits; or have their genes removed from the planetary genepool; -- it does not matter how many trillions of dollars, yen, rubles, pounds, deutschmarks philanthropists invest into 'social' or 'human' capital or 'sustainable development' etc; how many 'human rights' non-profits philanthropists fund to ease their resource thieving guilty consciences; how many charity function fundraising balls alienated rich assholes hold; how many Nobel Peace Prize's two faced coward lily white guilt liberals hand out; how many people you convert to Jesus, Allah, Mother Mary; Buddha, Satan, Lucifer; etc; how many poor left or right, white or black, chink or latino wing 'civil rights'; 'environmentalist'; 'free speech'; 'black power'; 'white power'; 'chink power'; 'kike power'; etc activists protest and go to jail as political prisoners to grow themselves a – look at me; I am a sadomasochist self righteous moral supremacist f**k honour ethics schmuck -- fancub; you won't fundamentally change the socio-economic or psycho-political alienation misery resulting from resource war conflict for anyone; of any race, class, or religion.

“We have men of science, too few men of God. We have grasped the mystery of the atom and rejected the Sermon on the Mount. The world has achieved brilliance without conscience. Ours is a world of nuclear giants and ethical infants. We know more about war than we know about peace, more about killing than we know about living. If we continue to develop our technology without wisdom or prudence, our servant may prove to be our executioner.” – General Omar Bradley 11 November 1948 Armistice Day speech.

“Economic freedom for women means sexual freedom; and sexual freedom means birth control. ... This war is about profits. The real War, of which this sudden outburst of death and destruction is only an incident, began long ago. It has been raging for tens of years, but its battles have been so little advertised that they have been hardly noted. It is a clash of Traders. It is a falling out among commercial rivals. It is about corporate profits. .. The last month of the Kerensky regime was marked first by the falling off of the bread supply from 2 pounds a day to 1 pound, to half a pound, to a quarter of a pound, and, the final week, no bread at all. Holdups and crime increased to such an extent that you could hardly walk down the streets. The papers were full of it. “Investigation shows that whenever two nations have become engaged in warfare they have been advancing on converging lines of (resource acquisition for growing consumption or procreation) self-interest and aggrandizement. When the contact takes place, the struggle for supremacy, or even survival is at hand. This inevitable hour is approximately fixed and determined by the angles of convergence plus the sum of the relative (consumption / breeding war) speed by which the nations are moving along their respective lines. Thus it is that, when

the angle of (breeding / consumption war) convergence of both or even one of the nations is acute and the speed or progress along one or both of the converging lines correspondingly great, war results in a few years or decades.” - Homer Lea, Valour of Ignorance; [Military Gospel According to Homer Lea](#).

“Prosecuting is about more than winning cases – it’s about doing the right thing for the community.” – Theo Stamos: Commonwealth Attorney: Arlington County & City of Falls Church, Virginia.

What is the ‘right thing’ for ‘the community’?

I spent fourteen years hitch-hiking and sailing around the world; including across Russia and China; spent a few days sleeping under stairs in Hong Kong airport; lived amongst people from different races, religions, cultures, classes. Herewith my observations of the average f**k honour civilian, irrespective of race, religion, class or culture:

The ‘right thing’:

Generally speaking – as their Masonic War is Peace cultures have taught them – their concepts of ‘the right thing’ – irrespective of race, class, religion, gender or culture – could be best described as ‘If I was honest: the right thing is whatever my fuck honour fragile ego decides is the right thing; and fuck everyone else; all of which is hidden behind my mask of bullshit the public verbal diarrhea; which I label as ‘diplomacy’, ‘face saving’, ‘manners’, ‘political correctness’, etc.

The ‘community’:

Generally speaking – as their Masonic War is Peace cultures have taught them – their concepts of ‘the community’ – irrespective of race, class, religion, gender or culture – depended on the foundation of their ‘human’ or ‘existential purpose’ identity; whether racial, cultural, religious, corporate, etc; at the expense of other racial, cultural or religious communities.

As the worlds populations breed like cockroaches on viagra and corporations cannibalize resources for profits; while [externalizing their costs; to the commons](#); the Masonic War is Peace – [legal, academic](#), religious, corporate – reptilian mind cannibal scorpions in a bottle game; more closely resembles the behaviour of scorpions than beings who refer to themselves as -- capable of reason, logic and cooperation -- humans. Men who have spent most of their lives in extreme reptilian mind cannibal scorpion environments wisdom: [Israel Shinbet Generals call for peace](#).

Ecology of Peace Right Thing for the Carrying Capacity resource foundation of Everyone’s Community:

Ecology of Peace Factual Reality Principles is about doing the right thing for the ecological carrying capacity commons; which is ultimately the source of water, food and shelter for every 'human' community; from all races, classes, cultures and religions.

Ecology of Peace Facts Reality being: (a) Earth is not flat; (b) Earth renewable and non-renewable resources are finite; (c) When humans [breed or consume above ecological carrying capacity limits](#), it results in [resource conflict](#); (d) If humans want to peacefully coexist; sustainably protect and conserve natural resources for their own races, religions or other species survival posterity; and/or restrict national and international inter-cultural, racial and religious resource war conflict; they should cooperate with other humans with such goals; to reform and/or abolish the [Masonic War is Peace](#) international law social contract; and cooperate to implement an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens, from all races, religions and classes; to breed and consume below ecological carrying capacity limits.

If Hong Kong Prosecutors and Mr Chen are willing to consider (i) whether they may be interested in a 'fraud' discussion; whether in public; or in court; that is founded on truthseeking inquisitorial enquiry consideration of the evidence that Mr. Chen's 'fraud' is at least partially; a symptomatic result of systemic legal ecological illiterate social contract; to (ii) generate public education and support for the amendment of the ecologically illiterate 'right to breed and consume with total disregard for ecological carrying capacity limits' social contract clauses; to be replaced with international law social contract clauses requiring all the worlds citizens from all religions, classes and races to procreate and consume below ecological carrying capacity limits; or have their genes eliminated from the planetary genepool; (iii) it would be worth investing my time to draft an official fraud complaint.

It would probably be reasonably similar to a combination of: the draft complaint [[PDF](#)] to the International Criminal Court; in [EoP PoW's v Nobel Committee & Nobel Laureates](#); and the [fraud & threat to national security complaint against Bilderberg and World Economic Forum participants](#); to Austria Ministry of Interior: Wien Federal Office for Prevention of Corruption and Swiss Federal Dept of Justice & Police: General Secretariat: Swiss Federal Office of Police.

Ecology of Peace perspective as to the difference between inquisitorial vs adversarial proceedings:

Inquisitorial juridical proceedings: An inquisitorial system is a legal system where the court is actively involved; with both parties; in investigating the facts of the case, while simultaneously representing the interests of the state; as is used in countries with civil legal systems; deriving from Roman law or the Napoleonic Code; such as Europe, Russia, China and South America. The presiding judge is not a passive recipient of information. Rather, the presiding judge is primarily or partially responsible for supervising the gathering of the evidence necessary to resolve the case. He or she is actively involved in steering the search for evidence and questions the witnesses, including the applicant and respondents. Attorneys suggest routes of inquiry for the presiding judge and follow the judge's questioning with questioning of their own.

Adversarial judicial proceedings: An Adversarial juridical system is a legal system used in the common law countries; such as America, Canada, Britain and Australia. Advocates represent their parties' positions before an impartial or allegedly impartial person or group of people, usually a jury or judge, who attempt to determine the truth of the case; but whose final decisions are limited to the court record information provided to them by what the attorneys consider 'relevant'. If or where the attorneys exclude relevant information; the Judge cannot

consider that information; even if he or she is aware of that possible information. If it has not been submitted into the court record by either side; then the Judge is only allowed to consider the information provided to the court. The judge or jury knows nothing of the litigation until the parties present their cases to the decision maker, and cannot take an active truthseeking role in the proceedings; to determine if possible relevant information has been denied to them. The defendant in a criminal trial is not required to testify.

The consequences of ecologically illiterate inquisitorial or adversarial zero-sum game judicial proceedings: Flat earth jurisprudence or judicial proceedings that ignored or refused to recommend to their political and legislative branches the necessity to amend their laws to address (i) ecological strain; and (2) economic stratification resource war violence; resulting from procreation and consumption above ecological carrying capacity limits; contributed to the collapse of the state of among others: Greco-Rome, Minoan, Mycenaean, Sumerians, Akkadian, Assyrian, Babylonian, Achaemenid, Seleucid, Zhou, Han, Tang, Song, Parthian, Sassanid, Umayyad, Abbasid, Mauryan, Gupta, Maya, Hittite, Harrapan and Teotihuacan Empires; which included the disappearance of between 90-99% of the populations: from famine, disease and organized violence resource wars; including their kings, presidents, Gods, calendars, courts and other complex political and cultural institutions -- [Human \(Predator\) and Nature \(Prey\) Dynamics \(HANDY\) studies](#).

Culture Change to EoP Honour Ecofootprint Shrinking Lifeboat Ethics public and legal discussion efforts:

A list of Ecology of Peace 'Culture Change to EoP Honour Ecofootprint Shrinking Lifeboat Ethics' public and legal discussion efforts to support EoP Axis nations military and political leadership to attempt to resolve the impending consequences of planetary predatory capitalism - - Real News: [Paul Jay's Reality Asserts Itself: Who Makes US Foreign Policy interview of Lawrence Wilkerson](#); particularly the [predatory capitalism](#) part; which deals with the necessity of the great powers cooperating to implement a new economic order; to address the massive impending planetary social conflict problems resulting from climate change, peak food, peak water, peak oil, including how and where to bury 6 billion people – to legally, politically and militarily cooperate to determine the best [legal, political and/or military options to implement an Ecology of Peace international law social contract](#); for humane, orderly and fair deindustrialization and depopulation; can be found, and are updated, at: [MILED Clerk Notice and EoP legal submissions](#).

If humane deindustrialization and depopulation is implemented through the implementation of an Ecology of Peace international law social contract; it would have greater positive effects on re-forestation, biodiversity and climate change than the extremely violent depopulation implemented by Genghis Khan the Green; which only occurred in Eurasia; but resulted in massive reforestation and the plummeting of carbon levels.

Excerpts from: [Coupled climate–carbon simulations indicate minor global effects of wars and epidemics on atmospheric CO2 between AD 800 and 1850](#) study by Julia Pongratz; article: [Genghis Khan the GREEN: Invader killed so many people that carbon levels plummeted; Carnegie: War, Plague No Match for Deforestation in Driving CO2 Buildup](#).

Genghis Khan has been branded the greenest invader in history - after his murderous conquests killed so many people that huge swathes of cultivated land returned to forest. The Mongol

leader, who established a vast empire between the 13th and 14th centuries, helped remove nearly 700 million tons of carbon from the atmosphere, claims a new study. The deaths of 40 million people meant that large areas of cultivated land grew thick once again with trees, which absorb carbon dioxide from the atmosphere. And, although his methods may be difficult for environmentalists to accept, ecologists believe it may be the first ever case of successful manmade global cooling.

Genghis Khan and his Mongol hordes had an impact on the global carbon cycle as big as today's annual demand for gasoline. The Black Death, on the other hand, came and went too quickly for it to cause much of a blip in the global carbon budget. Dwarfing both of these events, however, has been the historical trend towards increasing deforestation, which over centuries has released vast amounts of carbon dioxide into the atmosphere, as crop and pasture lands expanded to feed growing human populations. Even Genghis Khan couldn't stop it for long.

"It's a common misconception that the human impact on climate began with the large-scale burning of coal and oil in the industrial era," says Julia Pongratz of the Carnegie Institution's Department of Global Ecology, lead author of a new study on the impact of historical events on global climate published in the January 20, 2011, online issue of *The Holocene*. "Actually, humans started to influence the environment thousands of years ago by changing the vegetation cover of the Earth's landscapes when we cleared forests for agriculture."

Clearing forests releases carbon dioxide into the atmosphere when the trees and other vegetation are burned or when they decay. The rise in atmospheric carbon dioxide resulting from deforestation is recognizable in ice cores from Greenland and Antarctica before the fossil-fuel era.

But human history has had its ups and downs. During high-mortality events, such as wars and plagues, large areas of croplands and pastures have been abandoned and forests have re-grown, absorbing carbon dioxide from the atmosphere.

Pongratz decided to see how much effect these events could have had on the overall trend of rising carbon dioxide levels. Working with colleagues at the Max Planck Institute for Meteorology in Germany and with global ecologist Ken Caldeira at Carnegie, she compiled a detailed reconstruction of global land cover over the time period from 800 AD to present and used a global climate-carbon cycle model to track the impact of land use changes on global climate. Pongratz was particularly interested in four major events in which large regions were depopulated: the Mongol invasions in Asia (1200-1380), the Black Death in Europe (1347-1400), the conquest of the Americas (1519-1700), and the Fall of the Ming Dynasty in China (1600-1650).

"We found that during the short events such as the Black Death and the Ming Dynasty collapse, the forest re-growth wasn't enough to overcome the emissions from decaying material in the soil," says Pongratz. "But during the longer-lasting ones like the Mongol invasion and the conquest of the Americas there was enough time for the forests to re-grow and absorb significant amounts of carbon."

The global impact of forest re-growth in even the long-lasting events was diminished by the continued clearing of forests elsewhere in the world. But in the case of the Mongol invasions, which had the biggest impact of the four events studied, re-growth on depopulated lands stockpiled nearly 700 million tons of carbon absorbed from the atmosphere. This is equivalent to the world's total annual demand for gasoline today.

Pongratz points out the relevance of the study to current climate issues. “Today about a quarter of the net primary production on the Earth’s land surface is used by humans in some way, mostly through agriculture,” she says. “So there is a large potential for our land-use choices to alter the global carbon cycle. In the past we have had a substantial impact on global climate and the carbon cycle, but it was all unintentional. Based on the knowledge we have gained from the past, we are now in a position to make land-use decisions that will diminish our impact on climate and the carbon cycle. We cannot ignore the knowledge we have gained.”

Ecology of Peace DeIndustrialization and Depopulation Options:

Ecology of Peace Applicants have notified International Criminal Court Judges that they are currently searching for Assistance of Counsel [PDF] to file the [EoP complaint to ICC](#); to amend the current international law social contracts ‘right to breed and consume with total disregard for ecological carrying capacity limits’; causes of overpopulation and overconsumption.

As noted in Request for Assistance of Counsel to renowned Philippine’s Environmentalist lawyer: Tony Oposa [PDF]; if EoP Applicants cannot find any attorneys to support the filing of their EoP ICC complaint; EoP Axis authorities can choose to implement the [military necessity mutual coercion last resort option](#) of the [Ecology of Peace NWO social contract options](#).

EoP Axis Military Necessity Evacuation Mutual Coercion Last Resort Option:

If EoP Axis authorities – Leaders of Russia, China, USA & NATO – and/or IL Coercion authorities choose to implement the [EoP Axis Military Necessity Evacuation](#) – as detailed in *26 September 2015 Military Necessity Evacuation Lotto Pool Notice to Nation State Supreme Court Judges & Attorney Generals of: Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America, Vatican City* [PDF]; Proof of Service [PDF] – the first two countries on the EoP Axis Military Necessity Evacuation lotto are: Phillipines [PDF] and India [PDF].

Lotto Military Necessity Evacuation implementation shall result in half of India and Phillipines – or subsequent lotto draw nations – scarcity combatants and breeding/consumption war extremist’s – whom Masonic War is Peace legislators, lawyers and judges formerly provided with [Breeding/Consumption Innocence for sale Indulgences](#) – being psychotronically humanely killed en masse; unless their city or the citizen has signed EoP Axis Oaths and provided such oaths to EoP Axis authorities as documented at [EoP Supporters](#).

An EoP Military Necessity Evacuation:

- (a) Scarcity combatant is any citizen who is a member of the following professions: (i) Law: Judges, Prosecutors & Lawyers; (ii) Mental Health: Psychologists & Psychiatrists; (iii) Media: Print, TV or Radio: Editors, Producers & Journalists; (iv) Religious & Non Profit: Officials and Employees of any religious worship or charity organization with State non-profit status.
- (b) Breeding / consumption war extremist is any adult individual over the age of 18 who has co-procreated more than 3 children who survived beyond the age of 5; and/or who possesses capital assets amounting to more than US \$ 2.55 million.

Once half of Phillipines and India's scarcity combatants have been psychotronically evacuated; other nations shall no longer be able to live in denial about whether EoP Axis officials are serious about the military necessity of implementing an Ecology of Peace international law social contract.

At such point in time; nations national leadership previously in denial; may choose to change their minds; and exclude their nations scarcity combatant citizens from the [EoP Axis Military Necessity Evacuation](#) lotto pool; by (i) their national leadership informing 'EoP Axis authorities of their national leaderships commitment of unconditional cooperation; and (b) their Chief Prosecutorial Authority: Attorney General / Director of Public Prosecutions filing their written consent or objection with the International Criminal Court registrar consenting to or opposing the [EoP PoW's -v- Nobel Committee & Peace Laureates et al Crimes of Aggression Acts of War private prosecution proceedings](#); which must be received and verified by the Acting Clerk 5 days prior to the next scheduled lotto drawing; in order for the nation to be exempted from the lotto evacuation pool.

Conclusion:

If Hong Kong Prosecutors and Mr Chen are willing to consider (i) whether they may be interested in a 'fraud' discussion; whether in public; or in court; that is founded on truthseeking inquisitorial enquiry consideration of the evidence that Mr. Chen's 'fraud' is at least partially; a symptomatic result of systemic legal ecological illiterate social contract; to (ii) generate Hong Kong and Chinese public education and support for the amendment of the ecologically illiterate 'right to breed and consume with total disregard for ecological carrying capacity limits' social contract clauses; to be replaced with international law social contract clauses requiring all the worlds citizens from all religions, classes and races to procreate and consume below ecological carrying capacity limits; or have their genes eliminated from the planetary genepool; (iii) it would be worth investing my time to draft an official fraud complaint.

If so; could they provide the Hong Kong Police and myself; with a good faith notice in writing; that they support the Hong Kong Police to accept an Affidavit Complaint Statement from an individual who is a member of an Ecology of Peace culture [[EoP Oath PDF](#)]; in this matter.

Request for Information / Questions for Van Jones:

Since the advent of European / Jewish Military and Financial World Domination:

Do you know of any Non-European: African, African American, Latino, Muslim etc; who has:

- personally or legally directly approached European / Jewish Human Factory Farming Slave Master Oppressors; requesting them to engage in a public political and/or legal conversation that has never been had before; a conversation about abolishing the Masonic Left/Right Wing Human Factory Farm; a conversation about cooperating to implement an Ecology of Peace international law social contract; that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits; or be exterminated from the planetary genepool?

Do you know of any 'progressive' Non-European: African, African American, Latino, Muslim lawyer, religious, philosophic advisor who has advised 'progressive' Non-European or European 'Progressive' political leaders to:

- personally or legally directly approach 'conservative' European / Jewish Human Factory Farming Slave Master Oppressors; requesting them to engage in a public political and/or legal conversation that has never been had before; a conversation about abolishing the Masonic Left/Right Wing Human Factory Farm; a political and legal conversation about cooperating to implement an Ecology of Peace international law social contract; that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits; or be exterminated from the planetary genepool?

I have not been able to find any such historical information about any 'progressive' Non-European: African, African American, Latino, Muslim lawyer, religious, philosophic advisor or religious or political leader?

My working hypothesis is that the reason I have not been able to find such a 'progressive' Non-European lawyer, religious, philosopher advisor or political leader; is because they all secretly believe that Non-Europeans are – in terms of their procreation capabilities and skills: sexual discipline, responsibility and fully informed consent gender relations restraint – about as sexually 'superior/inferior' equal to cockroaches on viagra.

Put differently they secretly believe that the majority of Non-Europeans are incapable of procreation discipline.

Put simply: They think Non-Europeans are inferior beings; are not and never will be 'equal' to a European or Asian or Jew; a significant majority of whom are capable of procreation discipline; and who are not remotely threatened by an international law social contract; that would require them to procreate below ecological carrying capacity limits.

In 'progressive' terminology: Progressives know they are racists – according to their own definition of 'racist -- because of their secret beliefs about Non-Europeans cockroaches on Viagra behaviours; but do not have the integrity to admit it to themselves. They also don't love or care for Non-Europeans enough to believe that Non-Europeans deserve to know the brutal in your face truth; about what they believe about Non-Europeans 'cockroach on viagra' behaviours. Non-Europeans are quite simply nothing more than economic and political welfare vote farm cannon fodder to them in their fuck honour desire for power.

If love is defined as buck stops here brutal honesty:

Do you love Non-Europeans enough to think that Africans, Muslims, Latino's addicted to fornicating like cockroaches on Viagra; deserve an honourable public honest conversation about whether they are capable of procreation discipline?

Do you think Donald Trump loves European and Jewish Consumptionist addicted elite addicted to consuming like bling n*ggers on crack enough to think that they deserve a public honest conversation about whether they are capable of consumption discipline?

If neither of you love your respective followers enough to engage them in a buck stops here honest conversation about their procreation / consumption addiction sources of racism, nazims, etc; then what exactly is the difference between the two of you?

UNFCCC, Cop 21 & GMACCC: EoP Cop21 Simple Root Cause Problem Solving Recommendation

Negotiators from over 190 countries – representing citizens from many different races, classes, cultures, religions – have come together to negotiate a 'climate change agreement'; to stabilize atmospheric concentrations of greenhouse gases (GHGs) to avoid "dangerous anthropogenic interference with the climate system"; with the aim of keeping global warming below 2°C.

Simplify Suggestion:

"If you can't explain it simply, you don't understand it well enough." - Albert Einstein

1. Climate change – like food shortages, food inflation, cost of living increases, urban sprawl, traffic jams, toxic waste, pollution, peak oil, peak water, peak food, peak population, species extinction, loss of biodiversity, peak resources – is a direct and indirect consequence of overpopulation and overconsumption.

2. Overconsumption and overpopulation are a direct consequence of humans procreating and consuming above ecological carrying capacity limits.
3. Humans procreate and consume above ecological carrying capacity limits because the current international law social contract; provides the worlds nations citizens with the 'right to breed and consume with total disregard for ecological carrying capacity limits'.
4. Humans will stop procreating and consuming above ecological carrying capacity limits when legislators amend the international law social contract; to require all the worlds citizens to procreate and consume below ecological carrying capacity limits.

EoP Cop21 Simple Root Cause Problem Solving Recommendation:

Ask Cop 21 negotiators to vote on the following legally binding suggestion to eliminate the manmade causes of global warming.

Cop 21 negotiators agree to support international law legislation requiring all the worlds nations political parties to agree to implement national legislation by 11 September 2016; that requires all their citizens to procreate and consume below ecological carrying capacity limits. Any political party which refuses to cooperate; is to lose their political party license; and any nation that refuses to remove the violating political party's license may be legally charged in an international court; by any individual in that nation or another nation with the intention to bribe their citizens to overbreed or overconsume; which shall be considered crimes of aggression acts of war; punishable by the death penalty for every single member of that political party.

Once implemented all political parties will be on an even playing field and will no longer be able to bribe their citizens with individual or corporate welfare to vote for their political party. Politicians shall have to find their [Thomas Sankara](#) backbones; to cooperate with their citizens to teach them how to become cooperating self-reliant sustainable nations.

Ecology of Peace Culture Current Working Hypothesis Conclusion:

It is my current working hypothesis conclusion that a significant number of individuals involved – whether directly as a victim, victims family or community member, accused or accused family or community member, state investigator, prosecutor or corporate media reporter or editor; or social media poster or commenter – in the aforementioned events – were being [psychotronically manipulated](#), probably without their knowledge or consent.

Put differently: In any possible psychotronic handler manipulated event: There are at least three layers of meaning to any individuals actions: their human-drone's conscious actions based upon their conscious personal values; the human-drone's subconscious actions based upon their subconscious cultural values; the human-drones unconscious actions based upon their psychotronic handlers conscious and unconscious personal and cultural values. Put differently: the human-drone has their conscious reasons for what they were doing, where they were doing, how, with whom and why. They have their subconscious cultural reasons for what they were doing, where they were doing it; how, with whom and why. Their drone handler has his/her reasons for why they manipulated that particular human-drone to engage in that particular activity; or make that particular statement; at that place, with whomever it was done, and why. An Intelligence Agency handler psychotronically can manipulate any individual on earth; whether they be a president, pope or unemployed homeless person as a 'human drone war pawn, to send Masonic WiP secret society topology coded cryptic messages.

If accurate:

EoP Axis Military Intelligence Agencies from Russia, China, NATO members and America; acting on their own initiative or on the orders of their Political National Leader; with regard to aforementioned events; are engaged in 'cryptic negotiation' communications and messages regarding [Ecology of Peace v Masonic War is Peace culture war negotiations](#) and [court proceedings](#).

Ecology of Peace Applicants are exploring military, legal and/or political [options for the implementation of an Ecology of Peace international law social contract](#); that would require all the worlds citizens from all the worlds citizens from all races, classes and religions to procreate and consume below [ecological carrying capacity limits](#); or have their genes removed from the planetary genepool.

Current options for the implementation of an Ecology of Peace international law social contract are and have been: [EoP Referendum](#); [Amendment of UN Prisoner of War Treaty submission to Swiss Federal Council](#); International Criminal Court Complaint: [EoP PoW's –v– Nobel Committee & Peace Laureates et al](#); and if those don't work to nonviolently implement an EoP international law social contract; the last resort military necessity coercion option is: [Ecology of Peace Axis Military Necessity ICC 26 lotto Evacuation](#).

Military Cryptic Code and/or Twilight Language:

Cryptic communications occur everywhere from Joshua and Rahab's cryptic red cord/rope hanging from her window enabling the capture of Jericho in the Bible to Masonic War is Peace 'rule of law' Constitutional Court Judgements reliance on hidden – to the average layman – stare decisis rulings.

Examples of 'impossible coincidence' Global War on Terror Cryptic Messages:

Peter Power and London Bombings:

On the morning of the 7 July 2005 London bombings: Peter Power, a former Anti-Terrorist Branch Metropolitan police officer and "crisis management specialist" informed a television news report that he was involved in a fictional drill for a client – later revealed as publisher and backer of the UK's largest arms fair: Reed Elsevier – “based on simultaneous bombs going off precisely at the railway stations where it happened this morning”. In an interview he gave to the Manchester Evening News he spoke of "an exercise involving mock broadcasts when it happened for real".

According to [7/7 Ripple Effect](#) the probability of 7/7/2005 drill and attack coinciding without being planned to coincide in a 10 year period, is one chance in 3,715,592,613,265,750,000,000,000,000,000,000,000,000.

La Loche Saskatchewan: One 17 Yr old Male kills 4, wounds 7, allegedly arrested at 01:47 pm:

[La Loche Saskatchewan Shooting](#): On 22 January 2016, a 17 year old male, killed four -- his two cousins at their home; and two teachers at his school -- and injured seven [Numbers: 17.1.4.7]. He was charged with one charge of unauthorized possession of a firearm; four murder charges; and 7 charges of assault [Numbers.1.4.7]. Allegedly he was arrested at: 01:47 pm [Numbers: 1.4.7]. He is a member of the Clearwater River Dene nation; a Canadian Native American tribe; with high suicide rates; who was frequently bullied for his allegedly big ears. I do not know what the probability is for an individual to commit 1.4.7 criminal acts; resulting in 1.4.7 numerical charges; and of such person being arrested at the exact same 1.47 time.

[PNG](#): Dr. Len Horowitz representation of Solfeggio Scale & Devils Tone | Phi / Pie | Main Six Solfeggio Frequencies | Masaru Emoto: Hidden Messages in Water 19 April 2004 presentation in Portland Oregon.

According to Dr. Len Horowitz's interpretation of the Solfeggio scale; the number 639; which is between 528 and 741; represents the Devils Tone; the dissonance between Mi and So; or Love and Problem Solving.

John Nash's Theories of Beauty, Problem Solving Cooperation and Messages from God:

John Nash was a mathematician; famous for his [Nash Equilibrium theory](#); for which he won a Nobel Prize for Economics. John Nash is the subject of the movie: [A Beautiful Mind](#); and the documentary: [A Brilliant Madness](#).

Beauty & Problem Solving Cooperation Theories:

In *A Beautiful Mind* and *A Brilliant Madness*; the Nash Equilibrium theory is described as a mathematical principle of cooperation. The principle of cooperation to implement an Ecology of Peace international law as opposed to competition over resources is based thereon. Put simply: That in any conflict; those who cooperate to share resources and resolve the root causes of the conflict; would have a better chance of success and winning the fight; than those who say 'the strongest' shall win all the resources; and have the right to enslave the weakest.

They are sitting in a bar and in walks a beautiful blond Aryan woman; and they all start getting ready to fight each other to take her on a date; and John Nash laughs and tells them: Why fight about the few women you consider to be physically beautiful in appearance; instead of redefining beauty and cooperating to help all women to become beautiful in character. If you fight for a few physically beautiful women; only a few men will win a beautiful woman; if you redefine beauty in terms of character; you can then cooperate to help all women to grow beautiful characters; then every man in the process helps his own character; and goes home with a beautiful woman.

Similarly if humans cooperate to implement an Ecology of Peace international law social contract; then all the energy that is currently wasted by individuals, religions and races to fight over resources will no longer need to be wasted on resources; and humans will have more time and resources to investigate ideas such as whether God does or does not exist; or any other issue

of concern they are interested in investigating to seek the truth about reality; but currently cannot do so; because they are just joining one or other religion for ethnic or religious tribal resource war purposes; in their Planet of the Apes fight for survival.

Imagine if Adolf Hitler and Joseph Stalin had invited Mao Tse-tun, Franklin Delano Roosevelt and Neville Chamberlain to meet and discuss options for pooling their military resources to pressure the international legal community to implement an Ecology of Peace international law social contract; for the benefit of all individuals from all races, classes and religions interested in Ecology of Peace responsible freedom?

Imagine if Nelson Mandela and the ANC had invited Hendrik Verwoerd and the National Party to meet and discuss options for leading the world towards an Ecology of Peace international law social contract; by working together to implement an Ecology of Peace social contract for an ethical responsible freedom South Africa?

Messages from God Theories

In the documentary [A Brilliant Madness: A Mathematical Genius Descent into Madness](#); John Nash talks about how he attempted to mathematically calculate the probability of the existence of God; by attempting to determine the 'normal' probability for any coincidence event to occur; and if or where any highly improbable coincidence event occurred; which was not man-made; considering whether highly improbable coincidence events could be messages from God.

Erhan Cinlar: "From time to time you would see in your office, you know under the door a huge number of sheets that has been worked out the night before computing the probabilities of certain coincidences. Very detailed computations. He was attempting to prove the existence of God."

John Nash: "I felt I might get a divine revelation that seeing a certain number of [above normal] coincidences; could be interpreted as a message from Heaven."

In my personal opinion: in an age where military agencies have access to technology that includes mind reading and manipulating the thoughts, behaviors and actions of individuals, animals, the weather; etc; if or where any individual perceives any highly improbable coincidence event to have occurred; it would have to be verified that such improbable coincidence was not the result of (a) military agencies using military technology to manipulate events; (ii) extraterrestrial beings using extraterrestrial technology to manipulate events; before (c) any consideration could be given to whether it could be a message from God.

Working Hypothesis as to why people use cryptic code:

People use cryptic code language for many reasons; such as: Military leaders, politicians, corporate and mafia leaders use cryptic communication to (i) restrict their military, political policy, corporate business secrets, or mafia illegal activities information from perceived enemies and/or law enforcement; (b) manipulate their public relations image; to hide ugly inconvenient truths they do not want known about their policies, beliefs and/or actions; from the general public, their family; or their own followers.

I don't use cryptic code language cause (i) I don't have any secrets I need to keep from anyone else; (ii) I am not involved in any illegal activities; (iii) I don't have a public relations image that

hides ugly inconvenient truths; from the general public and I don't have followers. I prefer buck stops here really simple and crystal clear communication; no matter how offensive it may be.

If or when I have observed what I have interpreted as a working hypothesis conclusion possibility to be possible cryptic communications; I publicly document my Ecology of Peace interpretation of the possible cryptic message; for others to consider and provide me with their feedback; as to whether my interpretations of their communications are accurate or not.

Cryptic communications can be 100% precise, leaving absolutely no room for misinterpretation; like the orders sent to a Nuclear Submarine Captain in the movie [Crimson Tide](#); or ambiguous and imprecise; leaving massive room for wildly differing interpretations; like all organized religions texts; whether Islam, Christianity, Buddhism, Judaism, Satanism, etc.

The key to the cryptic code can be publicly available, where it can be hidden in a public place; like a library; or a law degree; or simply require an individuals interest to search and find it; or it can be under lock and key – like a nuclear submarine safe -- only available to a select few.

If you are in the desert and there is only one oasis well with water; which is locked. Then the person who has the key to that well of water is a very powerful person. That person can either decide: (i) whether to ration the water equally based upon the well's carrying capacity limits; or whether to ration the water based upon whom is the most powerful. If however some people in the village decide they want to be the political leader of the village and have the keys to the well; then they can lie to the citizens and say 'elect me; and I promise you can breed and consume like cockroaches on viagra; and there will always be enough free water for everyone'. When there is not enough water; and the people start fighting over the water; then the same politician can say 'the black people stole the water' or the 'white people are racists and wont share the water' and distract the emotionally greedy citizens; instead of saying to the citizens: 'I was the liar; I promised you, you could breed and consume like a cockroach on Viagra; because I wanted you to vote for me; so that I could stick my pig nose in the government corruption trough'. Greedy and corrupt citizens will vote for the politician who has promised them the most 'free water'; that does not require them to be responsible with regard to their consumption of the water. Honest citizens will take a look in the mirror and say 'who did I vote for'? Someone who said: We have a finite amount of water in our well; and must share it and conserve it; and have to breed and consume below the well's carrying capacity or we are going to go thirsty and die of famine from lack of water for crops. Some Generals will [try to educate their citizens](#) about how difficult it can be to simply try to provide ignorant people; who demand to breed and consume like cockroaches on Viagra; with a well to get reliable water.

Masonic legal proceedings involve reliance and practice of legal jargon cryptology: As Professor David Skover, Professor of Law at Seattle University says: "All law is interpretation. A lawyer uses words, which are inherently imprecise, and when a law is applied to the fact of a new situation what lawyers do is interpret the code words to deem them appropriately or inappropriately applied to the case at hand. To view the law means to understand interpretation. Law has more to do with critical literacy studies than it probably has to do with anything else."

Under Masonic War is Peace law: two judges adjudicating the same case of 'unlawful' actions before them; can of their own volition or as a result of arguments made before them by prosecutors and lawyers – involved in Accusatory proceeding -- follow two different Masonic Matrix maze paths of 'stare decisis' rulings; where one Judge can end up at a 'guilty' conclusion

and the other at an 'innocent' conclusion. All Judges, prosecutors and lawyers either consciously know this; or if intellectually honest even admit this: its sort of an open secret.

Ecology of Peace law is different: If or when an Ecology of Peace international law social contract is implemented; any village idiot will be able to inform police authorities with a reasonable degree of probable cause certainty that so and so is overbreeding and/or overconsuming; and/or not engaging in fully informed consenting agreements with so and so. Investigating, prosecuting, convicting and sentencing shall not involve massive millions of taxpayer funds.

Twilight language:

Twilight language explores hidden meanings and synchronystic 'coincidence' connections via onomatology: study of persons names; and toponymy: study of geographic place names. It is generally used by individuals involved in occult and/or illegal activities; by individuals and organizations who for some justified or unjustified reason want to 'send a plausible deniable message'.

Some people are either unaware of it; or others say that it does not exist; and is not being practiced. In order to prove to people who do not know what twilight language is; or how it is spoken; you have to use twilight language to communicate to them; and then find an honest interpreter who will accurately interpret your message; exactly as you meant it; not as they want to twist it; for their benefit.

This means that you must find someone who will listen; document her interpretation of the message; as an interpretation not a fact; and only if it is ever confirmed as an accurate interpretation; shall the interpretation be stated as a 'fact'.

If the nail you are hammering is to abolish the Masonic War is Peace social contract and replace it with an Ecology of Peace social contract; then that nail is simultaneously addressing a multitude of ecological overshoot problems: whether crime and violence, unemployment and poverty, food shortages, inflation, political instability, loss of political freedoms, conformist political correctness, vanishing species, garbage and pollution, urban sprawl, traffic jams, toxic waste, resource depletion, etc.

Put simply the nail is in the bulls eye target zone, and each hammer strike, sends problem solving solution ripples to each of all of these problems; whereas if you find a nail and stick it in only one of these problem areas; each hammer strike is pointless; because in the absence of addressing the root cause of the problem: Masonic War is Peace 'right to breed/consume with total disregard for ecological carrying capacity limits' social contract; the particular problem you are focussed on is only going to get worse; as the tap of overpopulation / overconsumption-ecological overshoot resource scarcity grows and grows and grows.

“The first thing you need to know about CERN is that it’s a misnomer. The N stands for Nuclear which sounded cool in 1954 but they’ve actually worked on sub-nuclear stuff ever since then. ... CERN—and specifically the Large Hadron Collider—is an attempt to simultaneously create the hottest place in the Universe and the near-coldest place in the Universe, on Earth, just outside Geneva, and millimetres away from each other. (The former, the conditions of the Big Bang; the latter, the 1.5° Kelvin of deep vacuum space and superconducting magnets cooled with liquid helium. The core beam tubes of the LHC are colder and emptier than most of space.) Here’s another thing. Magnets are a big deal at CERN, because you need them to steer the beams of very, very fast particles around in a big circle. And the French word for magnets is “aimants”, which means “loving”. The LHC is a massive loving machine, and I love the Académie française. – [Book Two](#); by James Bridle.

Keystone Predators maintain Ecological Equilibrium:

A keystone species -- like the Plateau Pika in China or the Black Tailed Prairie Dog in Arizona -- has a disproportionate effect on its environment relative to its abundance, affecting many other organisms in an ecosystem, helping to determine the types and numbers of various others species in a community. Such an organism plays a role in its ecosystem that is analogous to the role of a keystone in an arch. While the keystone feels the least pressure of any of the stones in an arch, the arch still collapses without it. Ecosystems experience a dramatic loss of biodiversity & equilibrium if the keystone species is removed. Keystone Predator-prey systems enhance ecological equilibrium and balance.

A starfish is the top predator upon a community of invertebrates inhabiting tidally inundated rock faces in the Pacific Northwest. The rest of the community included mollusks, barnacles and other invertebrates, for a total of 12 species (not counting microscopic taxa). When the starfish was removed the species were reduced to 11. Soon, an acorn barnacle and a mussel began to occupy virtually all available space, out competing other species. Species diversity dropped from more than 12 species to essentially 2. The starfish was a keystone predator, keeping the strongest competitors in check. Although it was a predator, it helped to maintain a greater number of species in the community. Its beneficial impact on species that were weak competitors is an example of an indirect effect.

CommonSism Jurisprudence, restricting all human cultures, religions, races, etc to procreating and consuming below regional, national and international carrying capacity limits; if implemented function as a form of 'legal /jurisprudence starfish' Keystone predation, by eliminating the breeding and consuming predator cheaters, to (a) keep the system stable with regard to human population vis a vis other species and resources; and (b) restrict any one religion, race, or culture from overpredation; by outcompeting all other species (due to greater access to capital (consumption war predatory benefits) or human cannon fodder (breeding war predatory benefits).

EoP Definition for Crimes of Aggression Acts of War roots of overpopulation and overconsumption causes of Terrorism:

Excerpt: 29 Dec 2015: ICC Judges [\[PDF\]](#):

---- Excerpt ----

On behalf of the EoP Applicants I have been preparing documentation for an ICC private prosecution in terms of Rendulic Rule Military Necessity doctrine; CA, UK, US & RSA

Common Law Private Prosecution doctrine; Rome Statute: Art.5, 6, 7, 8 & 15; ICC Code of Judicial Ethics: Art 4, 5(1), 7 & 11. Charges: Crimes of Aggression Acts of War.

The Ecology of Peace culture's definition of 'crimes of aggression acts of war' is as follows: "Any individual who is found guilty of advocating on behalf of, legislating, enforcing, or obeying any – cultural, religious, common, statutory, constitutional, or international – 'scarcity combatant' social contract; which enables or advocates on behalf of human procreation, consumption or production of resources that transgress ecological carrying capacity limits, is guilty of the 'crime of aggression act of war'."

Carrying Capacity Sustainability: I=PAT Equation:

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarized by what is known as the Ehrlich or IPAT equation, $I=PAT$. I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint relationship are that: (i) the Earth can support only a limited number of people, at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

An individual's IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor.

Consumption Footprint: Consumption footprint calculators are based upon [Global Footprint Application Standards](#), and calculate an individual's consumption footprint based upon various questions about their consumption lifestyle's; and provide a final consumption footprint in global hectares which is the individual's 'consumption footprint'; i.e. the amount of global productive land required for the production of products the individual consumes. Consumption Footprint calculators can be found at among others: [Global Footprint Network](#); [Earth Day](#); [Center for Sustainable Economy](#); [EcoCampus](#).

Global Footprint concepts were developed by among others: Dr. Mathis Wackernagel; Dr. William Rees; Dr. Herman Daly and the Global Footprint Network Standards Committee is one of two committees overseeing scientific review procedures and standards for Footprint calculations.

Procreation Factor: According to the research of [Paul Murtaugh](#): A parent increases their consumption footprint by a factor of 20 for every child procreated.

Carrying Capacity aka Biocapacity Limits: "The maximum number of individuals that can be supported sustainably by a given environment is known as its 'carrying capacity'. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each.

Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else.

For example:

Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million humans: 7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

Waldorf Hotel Basement: In 1954, Israeli statesman and archaeologist Yigael Yadin met secretly with the Syriac Orthodox Archbishop Mar Samuel in the basement of the Waldorf-Astoria Hotel to negotiate the purchase of four Dead Sea Scrolls for Israel. The scrolls were kept in a vault at the Waldorf-Astoria branch of New York's Chemical Bank. At the request of the Israeli government, respected biblical scholar Dr. Harry Orlinsky examined the scrolls and verified their authenticity; Yadin paid \$250,000 for all four.

“And when the cold war was over, he proposed beating swords into plowshares, arguing that half of the billions for the Pentagon should go to education, economic competitiveness and programs for the poor. This transformation began on April 27, 1973, 12 days before Mr. Colby learned that President Richard M. Nixon, then deeply enmeshed in the Watergate scandal, was about to nominate him as Director of Central Intelligence. That day, the Federal judge at the trial of Daniel Ellsberg, a former Defense Department official charged with espionage after the Pentagon Papers, a secret history of the Vietnam War, were provided to The New York Times, disclosed that the office of Mr. Ellsberg's psychiatrist had been burglarized by White House operatives -- with technical assistance from the C.I.A.”

-- [New York Times](#).

“Michael Collins Piper in his book “Final Judgement” wrote (William Colby – The Education Forum): The August 20, 1996 issue of The Sun, a supermarket tabloid, carried an exciting ‘newsflash’ which announced, “Dead CIA Chief Was Set To Finally Blow Lid on JFK Assassination”. The tabloid announced that former CIA director William Colby had been planning to blow the whistle on the truth about the assassination...The fact is, that while serving as CIA director, William Colby was considered hostile to Israel’s interests, so much so that it was Colby who fired the Mossad’s longtime agent-in-place at the CIA, James Jesus Angleton, who has been documented in ‘Final Judgement’ as the key CIA player in the JFK assassination conspiracy.”

The Air France Flight 4590 Concord crash into a field next to a hotel; after taking off from Paris airport; on 25 July 2000; was the result of the tyre running over an L-shaped titanium alloy strip – that had dislodged from a Continental Airlines DC-10 departing for Newark, New Jersey, during takeoff from the same runway; when a rivet popped – that punctured the tyre, a chunk of tyre debris struck a wing that sent out a pressure shockwave that ruptured a fuel tank and leaking fuel ignited. The fire caused damage to the port wing, which began to disintegrate—melted by the extremely high temperatures. Engine one and two lost power. Engine one surged again, but this time failed to recover. Due to the asymmetric thrust, the starboard wing lifted, banking the aircraft to over 100 degrees. The crew reduced the power on engines three and four in an attempt to level the aircraft, but with falling airspeed they lost control and the aircraft stalled, crashing into the field next to the Hôtelissimo Les Relais Bleus Hotel in the town of Gonesse.

In the letters sent to the media, the characters 'A' and 'T' were sometimes bolded or highlighted by tracing over, suggesting that the letters contained a hidden code: TTT AAT TAT.

Three A's; Six T's; Total of Nine letters; which could just as easily be arranged as Noughts and Crosses in Tic Tac Toe; used to teach Joshua the concept of Nuclear Mutual Assured Destruction futility in Wargames. Three Men's Morris is an abstract strategy game played on a three by three board that is similar to tic-tac-toe; which also has a Six Men's Morris and Nine Men's Morris variant. Combining Military call signs and Tic Tac Toe nuclear Morris wargames gets you Alpha and T to Tango:

Bold Alpha Tango -- "There will be peace when they love their children more than they hate us"-
- Wargames.

If accurate: The Bold Alpha Tango's will not be able to implement an Ecology of Peace social contract; if that is their serious intention; unless they are more detailed and specific about such intentions; and are willing to give up their addiction to plausible deniable occult practices.

A Revolutionary in Military Ethics is the premise for the EoP v WiP NWO negotiations [\[PDF\]](#) question: whom should the military kill; which is excerpted in: [stanmccrystal-spygame-](#)

[buffalobill-nato-bridge-garywebb](#); in UJMC-SF44: [Aex ELF Potato-Island Love Story: New EoP Gotit Rules or No Los Pepes Rules](#).

Our dilemma is that of defining just and unjust actions within our wars and conflicts. It is time to reexamine habits that have come to pass for ethics and ask the sort of questions that are as controversial as they are uncomfortable to the man or woman of conscience ... We must reexamine our concepts of the ethical and the legal. .. The whispered warning that we do not condone "assassinations" because we do not want our own leader assassinated is a counsel of unspeakable cowardice. First, if leaders will not risk the fate they ask of their privates, they are not fit to lead their people. Second, if foreign criminals, official or private, knew that retribution would be generally swift and always sure, attacks on US leaders -- or US citizens overall -- would likely decrease wonderfully. And such a policy would return us once again to an objectively moral path.

These issues demand serious debate. Traditionalists who decry even the possibility of attacking these sources of human misery in such a manner generally do so from campuses or comfortable offices. They are out of contact with our citizenry and its needs, as they are phenomenally out of contact with the sheer violence of this world. They will immediately push the issue to absurd extremes, crying out that such a doctrine would amount to giving our military, .. a license to kill. But the purpose of a military is to kill, and if you cannot stomach that, you should not have a military.

The only operative question is whom the military should kill.

»» Col Ralph Peters: [Revolution in Military Ethics](#)

I don't know what is on the top of other people's military necessity lists. Presumably the implementation of an Ecology of Peace international law social contract is on the top of many Generals and Admirals military necessity lists [PDF: 23 Jan 2016]. 'God Help Us All' considerations for the God/Allah/Jahweh/Buddha/Satan believers:

To the Pope's, Cardinals, Pastors, Friars, Priests, Deacons, Ayatollahs' Imam's, Witches interpreters of God / Allah / Buddha's / Satan's etc words:

- When do you intend to ask your God / Allah / Buddha / Satan boss; whether he knows that the earth he made is flat or not?
- If your God / Allah / Buddha / Satan boss knows that the earth he made is not flat; but round and with finite resources:
 - when does that God / Allah / Buddha / Satan boss of yours intend to inform you his prophet spokesperson?
- If your God / Allah / Buddha / Satan Boss knows that the earth he made is not flat; but round and with finite resources; and your God / Allah / Buddha / Satan is a God / Allah / Buddha / Satan is a God of peace:
 - When does your God / Allah / Buddha / Satan boss intend to order you to order his children of peace flock; to implement an Ecology of Peace international law social contract?

- If alternatively your God / Allah / Buddha / Satan Boss is a God / Allah / Buddha / Satan of War; when is your God / Allah / Buddha / Satan Boss going to order you his Interpreter prophets to order you to register your religion as a Religion of War with the relevant State authorities?

Since I don't believe in God; I don't ask God if the earth he made is flat or not; whether resources are finite or not.

Since it is quite obvious to me; that if people sincerely want to live in peace; they should cooperate to implement an Ecology of Peace international law social contract; I do what I can to educate (a) people who prefer avoiding social conflict or resource war conflict about how they can do so: cooperate to implement an Ecology of Peace international law social contract; that requires all the worlds citizens to procreate and consume below ecological carrying capacity limits; and engage in fully informed consenting agreements; (ii) people who occasionally or frequently prefer to engage in physical violent conflict; that if they support the implementation of an Ecology of Peace international law social contract; based upon breeding and consuming below ecological carrying capacity limits and fully informed consenting agreements; they will be able to engage in fully informed consenting fight club like fights in private venues; or whatever perverted violence they prefer to engage in; with others who have those preferences; and they won't have to worry about ending up in jail or in court; for their consensual violent activities.

If or where I perceive the possibility that some Generals or Admirals are sincerely concerned about the [implementation](#) of an [Ecology of Peace](#) international law social contract; to enable humane and orderly depopulation and deindustrialization to a new Ecology of Peace based economy; I do what I can to help them; as long as helping them does not conflict with my commitment to (a) honesty to all; (b) getting what I want: spending time physically with Timothy before we depart this planet.

“He was a senior commander who went with his units from house to house, from bunker to bunker, from orange grove to orange grove; to explain what he meant. And three months later, Gaza was quiet. Terrorism was crushed with an iron fist, with a cruel hand. He cast fear into Gaza. They were afraid of him, really scared. “In the Middle East, anyone who proclaims non-stop that he wants peace, projects the image of someone who is afraid of war because he is weak, thereby awakening the militaristic adrenaline glands of his neighbors, who then resemble nothing so much as eagles and vultures hovering over a dying cow. And the opposite is just as true: anyone who radiates power, strength, threat and danger enjoys comparative tranquillity because the bullies leave him alone. This is the reason the Arabs hated and respected Ariel Sharon and Moshe Dayan – they were afraid of them. Sadat made peace with Israel because he could not defeat the Jewish state despite the surprise factor he had in opening the Yom Kippur War and his early success in crossing the Suez Canal. Hussein also made peace with Israel, hoping it would use its power to help him face the Baath party of Syria and Iraq. Arafat agreed to a hudabiyya peace - that is, a temporary "peace" for as long as the enemy is too strong to defeat – after the failure of the first intifada.... In the area called the Middle East only those who are truly powerful, threatening and determined to deter their enemies survive. ... This is the bitter reality in which we attempt to survive... I am just the messenger who is charged with explaining to my readers what not everyone understands about the culture in our neighbourhood. “Parallels between South Africa and the Middle East: How Weakness Breeds Contempt: In terms of psychological dynamics, I see important similarities between South Africa and the Middle East. *From The Counterlife*, a 1987 novel by Philip Roth: “We’ll drive through the village You’ll see how Arabs who want to can live in peace, side by side, only a couple of hundred yards away. They come up here and buy our eggs. [Our old] chickens ... , we sell to them for pennies. The army could move in here tomorrow, weed out the troublemakers, and the stone throwing would be over in five minutes. But they don’t. They even throw stones at the soldiers. And when the soldier does nothing, you know what the Arabs think? They think you are a shmuck – and *you are a shmuck*. Any place in the Middle East, you throw a stone at a soldier and ... [h]e shoots you. But suddenly they discover ... that you throw a stone at an Israeli soldier and he doesn’t shoot you. He doesn’t do anything. *And that’s when the trouble begins. Not because we are cruel, but because they have found out we are weak. They don’t respect niceness and they don’t respect weakness. What the Arab respects is power.*” And just so, blacks think whites are fools. ... Of *course* blacks will think you’re a shmuck – ‘and you *are* a shmuck’! Arabs in Israel live better than those in ‘Palestine’, economically and politically. Most know this, but because of Western propaganda, many ‘convince’ themselves otherwise. In South Africa, most blacks don’t want black rule; but Western propaganda will ‘convince’ them they do. In both cases it is a matter of mob hysteria, intimidation and liberal media influence.” – Gedaliah Braun: [Racism, Guilt, Self-Hatred and Self-Deceit: A Philosophers Hard-Headed Look at the Dark Continent.](#)

“Order demands violence. A rule not ultimately backed by the threat of violence is merely a suggestion. States rely on laws enforced by men ready to do violence against lawbreakers. [...] Without action, words are just words. Without violence, laws are just words. [...] Violence isn’t the only answer, but it is the final answer. One can make moral arguments and ethical arguments and appeals to reason, emotion, aesthetics, and compassion. People are certainly moved by these arguments, and when sufficiently persuaded –providing of course that they are not excessively inconvenienced — people often choose to moderate or change their behaviors. However, the willful submission of many inevitably creates a vulnerability waiting to be exploited by any one person who shrugs off social and ethical norms. [...] Violence is the final answer to the question, “Or else what?” [...] Ask the Cherokee, the Inca, the Romanovs, the Jews,

the Confederates, the barbarians and the Romans. They all know “Or else what.” – [Jack Donovan: Violence is Golden](#).

“Here they place Putin in context as part of the so-called Andropov levy, a generation of KGB officers recruited during the long (1967–82) chairmanship of Yury Andropov. According to Hill and Gaddy, Andropov saw himself as an enlightened, liberal secret policeman who emphasized the need to “work with people”—that is, to try persuade dissidents to change their minds and support the Soviet regime, but with obvious coercive threats looming in the background. They see Putin as adapting this approach to Russian politics today, trying to win through persuasion, but always ready to bring the full force of the state to bear on any opponent who does not see the wisdom of agreeing. Most notably, Putin used this method to bring the oligarchs to heel. Putin made it clear they would be allowed to make their fortunes but had to become apolitical, pay their taxes, and follow Putin’s policy line. He made it clear that their “property rights were ultimately dependent on the good will of the Kremlin,” with former oligarch Mikhail Khodorkhovskiy’s fate—a long jail term and seizure of his assets—serving as an example of what would happen to anyone who stepped out of line. It is the same method that Andropov used with dissidents, who knew that psychiatric hospitals and labor camps awaited anyone who failed to be persuaded by the KGB’s arguments.” - [CIA Review: The Man Without a Face: The Unlikely Rise of Vladimir Putin](#), by Masha Gessen and [Mr. Putin: Operative in the Kremlin](#), by Fiona Hill and Clifford Gaddy.
